

Erakundea Entidad	Proiektua Proyecto	Herria País	Formakuntza Titulación	Jarduera Actividad	Plaza kopurua Nº de plazas
PLANETWIZARD LDA (LLUNI - EASY SOFTWARE MANAGEMENT)	BECAS GT2021 - Informática. PORTUGAL (BRAGA) Inscribirse a la oferta	PORTUGAL	Ingeniería Informática.	Departamento de Informática Melhorar as plataformas implementadas; Contribuir para a criação de novas funcionalidades e propor soluções de melhoria.	1
UNIVERSIDAD NACIONAL DE MISIONES (UNAM)	BECAS GT2021 - Proyecto "Valoración Económica de los Emprendimientos Agropecuarios y Forestales de la provincia de Misiones". ARGENTINA (ELDORADO) Inscribirse a la oferta	ARGENTINA	Ingeniería forestal, ingeniería agrónomo, antropología, trabajo social, administración, biología o ambiente.	Proyecto "Valoración Económica de los Emprendimientos Agropecuarios y Forestales de la provincia de Misiones": <ul style="list-style-type: none"> Asistir a los relevamiento de los productores y completar formularios de entrevistas. Procesamientos de datos, análisis de la información y revisión de antecedentes. Organizar talleres participativos con los productores agropecuarios y forestales Elaboración de informes y presentación de resultados. 	1
4PI PRODUCTIONS UK	BECAS GT2021 - Multimedia Design. REINO UNIDO (CARDIFF) Inscribirse a la oferta	REINO UNIDO	Degree in Computer Sciences, Programming, Multimedia Design, or a related field.	Multimedia Design: Website / Coding / 360° filming and Video editing / Motion Graphics VFX / Interactive Design. We are an art driven company looking for a selfmotivated and creative individual with experience in interaction design, 2D / 3D animation, website coding or app development for IOS or Android. At 4PI we specialize in virtual reality, immersive domes and 360° video content for delivery across multiple platforms.	1
AALTO UNIVERSITY	BECAS GT2021 - Department of Bioproducts and Biosystems, Bio-based colloids and materials group. FINLANDIA (ESPOO) Inscribirse a la oferta	FINLANDIA	Bachelor Degree in Chemistry, mechanical engineering, or materials science. Master's Degree in any related discipline would be viewed positively.	Department of Bioproducts and Biosystems, Bio-based colloids and materials group. Under the name "Renewable materials for water treatment applications", we expect to synthesize polymers from renewable origin to be applied in the development of novel water filtration devices. The candidate will work on the preparation of fully renewable materials for filtration of waste effluent, which can be used and replaced at a high rate without generating additional harmful wastes. The final objective is to achieve, cheaper, environmentally- friendlier yet high efficiency water treatment membranes and bulk materials.	1
AGÊNCIA DE PROMOÇÃO DA CULTURA ATLÂNTICA	BECAS GT2021 - Application for European Capital of Culture for the city of Funchal in 2027 PORTUGAL (FUNCHAL) Inscribirse a la oferta	PORTUGAL	Arts / Culture / Anthropology / Sociology studies bakground	Both trainees will work close with the team that is preparing the application for European Capital of Culture for the city of Funchal in 2027. Expected activities from both trainees include contacts with artistic and cultural entities from Spain in order to engage these in the artistic and cultural program that is being built.	2

ITP ENGINES UK, LTD	BECAS GT2021 - Manufacturing engineering. REINO UNIDO (LINCOLN) Inscribirse a la oferta	REINO UNIDO	Ingeniería Industrial o grado de Ingeniería Industrial. Se valorará experiencia en el sector de fabricación o cuya especialidad esté relacionada con la fabricación.	En los proyectos que participará el/la seleccionado/a estará ligado con la fabricación de distintas piezas rotativas aeronáuticas (ingeniero de fabricación de estructuras aeronáuticas). Las tareas a realizar por el seleccionado/a serán: <ul style="list-style-type: none"> • Desarrollo de procesos para fabricación de piezas rotativas. • Mejora de los procesos mediante análisis estadístico (SPC). • Soporte en procesos de fabricación como torneado, mecanizado de 5 ejes, rectificado, brochado, mediciones tridimensionales, inspecciones no destructivas como líquidos penetrantes, partículas magnéticas o macro-ataques químicos. 	1
ROKIN GMBH	BECAS GT2021 - Web development. ALEMANIA (GILCHING) Inscribirse a la oferta	ALEMANIA	Computer Science, Webdevelopment, Frontend/Backend developer, Fullstack, JavaScript, NodeJS, React, CSS, HTML, Google Cloud Platform skills.	The intern will be working in web development, in Front/Backend technologies to provide our customer with a highly performant web interface for our technology search engine.	1
SAS TECNALIA FRANCE	BECAS GT2021 - Searching for information of private and public entities. FRANCIA (BORDEAUX) Inscribirse a la oferta	FRANCIA	Economist, Engineer....	<ul style="list-style-type: none"> • Searching for information of private and public entities • Organization of workshops in order to let to know TECNALIA • Attendance to fairs • Presentations • Searching finance for projects 	1
UNIVERSITY OF NEW SOUTH WALES	BECAS GT2021 - Chemical Engineering - Design of advanced Li-ion and Zn-ion battery separators through microstructure and surface chemistry manipulation. AUSTRALIA (SYDNEY) Inscribirse a la oferta	AUSTRALIA	Master's or Equivalent in - Chemistry/Materials Science/Chemical Engineering.	Design of advanced Li-ion and Zn-ion battery separators through microstructure and surface chemistry manipulation. The candidate is expected to fabricate polymer-based membranes, characterize their physico-mechanical performance and test such materials as battery separators.	1

UPPSALA UNIVERSITY	BECAS GT2021 - Department of Materials Science and Engineering, Nanotechnology and Functional Materials. SUECIA (UPPSALA) Inscribirse a la oferta	SUECIA	Bachelor Degree in Chemistry. Experimental experience on the synthesis of materials.	The project will focus on engineering of functional porous materials, e.g. metal-organic frameworks (MOFs), covalent organic frameworks (COFs), by cellulose nanofibers (CNFs) for the development of freestanding nanocomposites of CNF@MOF/COF. The obtained nanocomposites will be fully characterized by a range of analytic techniques and their potential applications in energy storage, electrocatalysis, adsorption and separation, will be investigated.	1
AIT (AUSTRIA INSTITUTE OF TECHNOLOGY GMBH)	BECAS GT2021 - Thermal laboratory components and systems for the generation and transformation of renewable energy. AUSTRIA (Viena) Inscribirse a la oferta	AUSTRIA	Ingeniería, Automoción, Mecatrónica, Energía y Procesos	Experimental characterization and demonstration of lab and full-scale thermal components and systems for generation and transformation of renewable energy.	1
DERRY CITY AND STRABANE DISTRICT COUNCIL	BECAS GT2021 - Derry City & Strabane District Co8uncil. Energy Department. REINO UNIDO (Derry) Inscribirse a la oferta	REINO UNIDO	Ingeniería Mecánica, Eléctrica, Civil	Support the Energy Manager in the development and Implementation of a Council Wide Carbon Management Plan	1
TECNALIA SERBIA DOO BEOGRAD	BECAS GT2021 - Support to show the offer of TECNALIA Serbia. SERBIA (Belgrado) Inscribirse a la oferta	SERBIA	Económicas, Ingeniería Informática, Biomedicina	Searching for information of public and private entities Organization of promotional material, workshops, events in order to show the offer of TECNALIA Serbia Assistance to trade fairs.... Presentations, Searching for funding for projects	1
ICLEI	BECAS GT2021 - Digital media communications, projects, events and service contracts - ALEMANIA (Freiburg im Breisgau) Inscribirse a la oferta	ALEMANIA	Geografía, Ciencias Ambientales, Urbanismo, Comunicación	Supporting ICLEI's information services. Specifically: Developing content and features for the ICLEI Europe website, Involvement in communication campaigns, enewsletter. Supporting the organization of events.	1
PANNON BUSINESS NETWORK	BECAS GT2021 - Am-LAB Digital Innovation Hub. Digitalization transformation in manufacturing. HUNGRIA (Szombathely) Inscribirse a la oferta	HUNGRIA	Ingeniería Industrial, Informática, Diseño Industrial	am-LAB was awarded as best digital innovation hub in 2020. The focus is on digitalization transformation in manufacturing, providing trainings and applied research and development. 4 areas with tools and competencies are robotics, extended visuality, 3Dtechnologies and data science.	1

UNIVERSITY OF THE WEST OF ENGLAND, BRISTOL	BECAS GT2021 - Centre for Transport & Society - an academic research centre focussed on transport and mobility studies. Inscribirse a la oferta	REINO UNIDO	Ingeniería (transporte y movilidad, logística), ADE, Innovación, Gestión Medioambiental o Geografía	The trainee will act as a 'Research Assistant' supporting the research activities of the Research Centre on sustainable and innovative freight transport and logistics across the following projects/activities: Triple Access Planning for Uncertain Futures European Project 2021-2024), Dock-to-Dock (D2D), pilot project focused on the combined aspects of route development, vehicle performance (air & sea) and the associated physical and digital infrastructure required to perform safe commercial freight operations from a "Smart-Multiport"; and a range of possible	1
LAVAL MAYENNE TECHNOPOLE	BECAS GT2021 - Network&Partnership Department European Funds Inscribirse a la oferta	FRANCIA	Derecho, Ciencias Políticas, Relaciones Internacionales	Detecting European funding opportunities for Laval Mayenne Technopole and for local companies, and research centers. He/She will also help to find EU consortia answering the different call for proposals and looking for partners. Targeted European funds are: Interreg, FEDER, Horizon Europe, mainly, but the Intern will also help to detect other funding opportunities.	1
CITTÁ METROPOLITANA DI TORINO	BECAS GT2021 - CMTO Economic Development Department. European and International Projects Unit. ITALIA (Turín) Inscribirse a la oferta	ITALIA	ADE, Económicas, Estudios Europeos	The trainee will be involved mainly in the activities related to ecoRIS3 project financed by Interreg Europe Program. We are planing to present a project related to the call for additional activities. If approved, the trainee will be the main reference for the Metropolitan City, supported by the internal staff. If not, we will work for the promotion of the ecoRIS3 results at local and EU level; the trainee will follow this activity	1
UNIVERSITY OF LJUBLJANA	BECAS GT2021 - ICT Department at the Faculty of Electrical Engineering. SLOVENIA (Ljubljana) Inscribirse a la oferta	SLOVENIA	Ingeniería	The trainee will be actively involved in the work of the "human-centered digital transformation" team. Within our team we are working on several international, EU-funded projects (Horizon and Interreg) about digital transformation of companies, public administration and communities. The trainee can select working either on projects for smart rural development – smart villages or digital innovation hubs.	1
HARVARD MEIDCAL SCHOOL	BECAS GT2021 - Brigham and Women's Hospital. Departamento de Radiología. EEUU (Boston) Inscribirse a la oferta	EEUU	Ingeniería Biomédica, Ingeniería en Telecomunicaciones, Ingeniería Informática o similar	Posición pre-doctoral para desarrollar e implementar nuevas metodologías de análisis de imagen tomográfica por rayos X. Las áreas de investigación en las que se enfocará el candidato incluirán las siguientes: modelado estadístico de imagen CT, caracterización de estructura local en imagen 3D, desarrollo de algoritmos con tecnología Deep Learning	1

MASSACHUSETTS INSTITUTE OF TECHNOLOGY (MIT)	BECAS GT2021 - MIT- Regenerative Medicine/Knouse Lab. EEUU (Cambridge) Inscribirse a la oferta	EEUU	Ingeniería Biomédica, Biomedicina, Medicina	The Knouse Lab studies how tissues sense and respond to injury with the goal of better understanding and engineering organ regeneration. The trainee will participate in ongoing research projects involving liver or cardiac regeneration and engineering of selective lentiviral vectors. During the internship, the trainee will have the opportunity to learn and assist with different techniques such as, mouse colony maintenance, mouse surgeries, tissue processing, lentiviral vector production, CRISPR/Cas9 screens, immunostaining and confocal microscopy. In addition, the trainee will also acquire skills in data statistical analysis, presentation and discussion of results.	1
MASSACHUSETTS INSTITUTE OF TECHNOLOGY (MIT)	BECAS GT2021 - MIT MediaLab- City Science Group. EEUU (Cambridge) Inscribirse a la oferta	EEUU	Ingeniería Industrial y Mecánica	Reimagining the work and living places of the future, analysing the coming urban challenges, and reinventing the mobility.	1
SPINTEC-GIANT	BECAS GT2021 - SPINTEC LABORATORY. Spintronics on magnetic skyrmions. FRANCIA (Grenoble) Inscribirse a la oferta	FRANCIA	Ingeniería, Física	The internship will be based on all the experimental methods and techniques used for the development and characterization of spintronics devices: sputter deposition of ultra-thin multilayer materials and characterization of their magnetic properties by magnetometry methods, followed by nanofabrication of nanostructures cut in these layers by electron lithography and ion etching. Nanofabrication will be performed at the PTA nanofabrication platform located in the same building as the Spintec laboratory	1
ZABALA BRUSSELS SPRL	BECAS GT2021 - Consultoría de Innovación, Proyectos Europeos. BÉLGICA (Bruselas) Inscribirse a la oferta	BRUSELAS	Ingeniería Organización, Económicas, ADE, Gestión de Negocios	Contribute to the management of EU funded projects, to the preparation of innovation related proposals of EU programmes and support senior consultants in the management of clients	1
GBA ZABALA CONSEIL INNOVATION	BECAS GT2021 - Consultoría de Innovación, Proyectos Europeos. FRANCIA (París) Inscribirse a la oferta	PARÍS	Ingeniería (Industrial, Química, Civil), Químicas, Biología, Farmacia, ADE	Strategic funding advise to companies, research centers and universities. Proposal development focused on EU funding programs (Horizon Europe, Life, etc.). Follow up the project proposal and support the customer during the negotiations with the European Commission	1

PONTIFICIA UNIVERSIDAD CATÓLICA DE VALPARAÍSO	BECAS GT2021 - Coordinación General de la Vicerrectoría de Investigación y Estudios Avanzados (VRIEA). CHILE (Valparaiso) Inscribirse a la oferta	CHILE	Grado Superior en Ingeniería, Economía, Gestión de Negocios, Relaciones Internacionales u otro grado	Asistente de Coordinación en los proyectos transversales que se coordinan desde la VICERRECTORIA DE INVESTIGACIÓN Y ESTUDIOS AVANZADOS (VRIEA), los que incluyen áreas de posgrado, investigación, innovación, emprendimiento, incubación y negocios. (VRIEA)	1
PONTIFICIA UNIVERSIDAD CATÓLICA DE VALPARAÍSO	BECAS GT2021 - Proyecto Science-Up, liderado por la VRIEA. CHILE (Valparaiso) Inscribirse a la oferta	CHILE	Ingeniería, Economía, relacionado con Gestión, Innovación y/o Sostenibilidad	Apoyo a la coordinación general del proyecto Science Up. Se trata de un consorcio de las facultades de ciencias de las universidades de Santiago de Chile, Católica del Norte y PUCV, siendo nuestra universidad la que lidera. El objetivo general del proyecto es Formar estudiantes altamente competentes en la formación disciplinar de las ciencias con capacidades para desarrollar investigación aplicada, transferencia y desarrollo tecnológico, innovación de vanguardia y emprendimientos de base científica tecnológica y el trabajo se realizará a través de los ejes de Armonización Curricular, Vinculación con el Entorno Socio Productivo y Participación y Liderazgo Femenino.	1
PONTIFICIA UNIVERSIDAD CATÓLICA DE VALPARAÍSO	BECAS GT2021 - Dirección de Incubación y Negocios de la Vicerrectoría de Investigación y Estudios Avanzados. CHILE (Valparaiso) Inscribirse a la oferta	CHILE	Gestión de Negocios, Innovación y Emprendimiento y/o Sostenibilidad	Seguimiento de proyectos universitarios, sobre todo apoyo metodológico de incubación de proyectos de innovación y emprendimiento con impacto social. (DIE DIN). Apoyo en el área de la Incubadora Social Gen-E, la que está en constante dinamismo y crecimiento, en el trabajo que se realiza con emprendedores en estado de vulnerabilidad.	1
